CARE CHAMPION PROGRAM

Creating a Community Where Care Creates Impact

Together, we provide care, confidence, and connection.

OUR MISSION

Nicobi Cares supports girls, women, and families through care kits, wellness initiatives, mentorship, education, and meaningful community partnerships.

Our mission is simple: bring people and organizations together to show up for the community through acts of care.

WHAT IS A CARE CHAMPION?

A Care Champion is a business, organization, or individual who partners with Nicobi Cares to turn small acts of kindness into meaningful community impact.

Care Champions help provide resources, experiences, and support that remind people they are seen, valued, and cared for.
